JBL Pulse 5 specifications

Below you will find the product specifications and the manual specifications of the JBL Pulse 5.

The JBL Pulse 5 speaker is a wireless speaker that features a single driver and a single tweeter. The speaker diameter of the tweeter is 16 millimeters, while the woofer has a diameter of 64 millimeters. With an RMS rated power of 40 watts, it provides a powerful sound experience. The subwoofer specifically offers an RMS power of 30 watts, adding depth and richness to the audio.

The speaker utilizes Bluetooth 5.1 technology for seamless wireless connectivity. It supports advanced audio distribution profile (A2DP) and audio/video remote control profile (AVRCP) Bluetooth profiles, ensuring compatibility with a variety of devices. However, it does not have Wi-Fi capability.

Constructed with reliable and durable materials, the JBL Pulse 5 speaker is designed to deliver high-quality audio. It features a sleek and stylish design that is visually appealing. The speaker offers a range of customizable LED light show options, adding a vibrant and dynamic visual element to the listening experience.

Overall, the JBL Pulse 5 speaker provides a wireless audio solution with a powerful sound output and customizable LED lights. Its compact size and wireless connectivity make it convenient for use in various settings. While its Wi-Fi absence may limit certain features, the Bluetooth 5.1 technology ensures easy connectivity with compatible devices. Whether for casual listening or hosting a party, the JBL Pulse 5 speaker offers a versatile and enjoyable audio experience.

Frequently Asked Questions

Can't find the answer to your question in the manual? You may find the answer to your question in the FAQs about the JBL Pulse 5 below.

Why is my JBL Pulse 5 not turning on?

Make sure the speaker is not out of battery. Connect it to a power source using the provided USB cable, and allow it to charge for at least 3 hours. If the issue persists, try resetting the speaker by holding down the power button for 15 seconds.

How can I pair my JBL Pulse 5 with a Bluetooth device?

Ensure Bluetooth is enabled on your device. Press and hold the Bluetooth button on the speaker until the LED indicator starts flashing. On your device, search for Bluetooth devices and select "JBL Pulse 5" from the list. Once connected, the LED indicator will stop flashing.

My JBL Pulse 5 is not producing any sound, what should I do?

Firstly, make sure the volume on both the speaker and your connected device are turned up. Also, check that the speaker is not in mute mode by pressing the play/pause button once. Additionally, confirm that the audio source you are playing from is functioning properly.

What is the maximum range for the Bluetooth connection on the JBL Pulse 5?

The JBL Pulse 5 has a Bluetooth range of approximately 10 meters (or 33 feet). Ensure that your paired device is within this range to maintain a stable connection without interruptions.

Can I connect multiple JBL Pulse 5 speakers together for a stereo sound experience?

Yes, you can connect multiple JBL Pulse 5 speakers using JBL PartyBoost feature. Press and hold the PartyBoost button on the first speaker, then turn on the second speaker while still holding the PartyBoost button. Release the button on both speakers, and they will automatically pair. Enjoy synchronized stereo sound!

Does the JBL Pulse 5 have a tweeter?

Yes, the JBL Pulse 5 has a tweeter which enhances the high-frequency audio performance, providing clear and crisp sound for the user.

How large is the tweeter diameter of the JBL Pulse 5?

The tweeter diameter of the JBL Pulse 5 is 16 mm, ensuring accurate reproduction of high-pitched sounds and delivering an immersive audio experience.

Does the JBL Pulse 5 have a woofer?

Yes, the JBL Pulse 5 is equipped with a woofer that enhances the low-frequency audio output, delivering deep and rich bass for a more dynamic sound experience.

What is the woofer diameter of the JBL Pulse 5?

The woofer diameter of the JBL Pulse 5 is 64 mm, providing a substantial bass response that adds depth and impact to the audio, making it ideal for music lovers.

Is the JBL Pulse 5 compatible with Bluetooth?

Yes, the JBL Pulse 5 features Bluetooth connectivity with version 5.1, enabling seamless wireless streaming and easy pairing with compatible devices. This ensures a convenient and hassle-free user experience.

What is the weight of the JBL Pulse 5?

The JBL Pulse 5 has a weight of 1470 g.

Can bluetooth devices of different brands be connected to each other?

Yes, bluetooth is a universal method that allows different devices equipped with bluetooth to connect to each other.

What is the height of the JBL Pulse 5?

The JBL Pulse 5 has a height of 214 mm.

What is the width of the JBL Pulse 5?

The JBL Pulse 5 has a width of 107 mm.

What is the depth of the JBL Pulse 5?

The JBL Pulse 5 has a depth of 131 mm.

What is bluetooth?

Bluetooth is a way of exchanging data wirelessly between electronic devices via radio waves. The distance between the two devices that exchange data can in most cases be no more than ten metres.

When is my volume too loud?

A volume above 80 decibels can be harmful to hearing. When the volume exceeds 120 decibels, direct damage can even occur. The chance of hearing damage depends on the listening frequency and duration.

Wat is Dolby Atmos?

Dolby Atmos is a technology that ensures that the sound is reflected from the ceiling to where you are listening. This makes it possible to create a 5.1 effect with only 1 speaker.
